

## Description

A500 audio unit is a full IP solution for the communication in luxury homes, residential buildings, condominiums or office buildings.

Thanks to its technology and Peer2Peer facilities A500 units do not require any server on the installation.

The protocol of communication is UDP/IP which makes possible to be connected to a LAN together with other IP devices in the same installation. The system never becomes busy thanks to the multi-channel feature.

The high fidelity FULL duplex audio communication makes this product exclusive.

Dimensions: 95 (W) 140 (H) 14 (D) mm
